Reminders from Nibley City Staff

This past month, Nibley had two near misses with flooding along the Nibley Blacksmith Fork Canal. Luckily, the city was able to act in time to prevent any major damages to homes and properties along the canal.

After some investigation, it became apparent that large amounts of yard debris (weeds, grass clippings, tree limbs, firewood etc.) had been dumped into the canal, had traveled downstream and built up at one of the canal grates, causing the canal to backup. If this continues to occur, the canal could overflow and cause significant damage to homes and property. While we are confident that dumping of debris into the canal was not done maliciously, we'd like to remind you of some regulations regarding canals.

Nibley City Code §4-1-2 states:

"(B) Specified: Nuisances include, but are not limited to: (15) Obstructing Public Ways, Watercourses, Parks: Obstructing or tending to obstruct or interfere with or render dangerous for passage any street or sidewalks, lake, stream, drainage, canal or basin, or any public park without first obtaining the written permission of the city council."

Additionally, §4-1-4 states:

"(A) It shall be unlawful for any person to permit any drainage system, canal, ditch, conduit or other watercourse of any kind or nature, natural or artificial, to become so obstructed as to cause the water to back up and overflow therefrom, or to become unsanitary."

Violating these sections is a class C misdemeanor, punishable by up to ninety (90) days in jail and a \$750 fine, plus \$10 per day for each day the violation is not remedied.

There are two large green waste bins at city hall, at 455 W. 3200 S; which are available to all citizens for the proper disposal of green waste. You may also order a green waste can for your home, which costs \$4.00 per month.

We are grateful for the efforts the vast majority of you take to properly dispose of bebris and keep the canals surrounding your property free from clutter and all that you do to help us make Nibley a great place to live. We hope that you will be diligent in keeping the canals free of debris and helping your neighbors and friends do likewise.

All those that run all 26.2 miles are entered for a grand prize and there is an additional entry for every extra 10 miles they run.

Blacksmith Fork Wildlife Association News

You do not need to live in a forest to have your home listed as certified wildlife habitat. If you have flowers, a tree or shrub, and a birdbath or other source of water, you qualify. It can happen in any neighborhood. Follow these steps to certify your property privately, online at www.nwf.org:

1. Go to www.nwf.org
2. Scroll down to wildlife gardening.
3. Click on “certify” on the top bar.
4. Click on the green “certify now” tab
5. Describe your property
6. Pay the one-time, tax deductible fee of \$20.00– used for habitat protection around the country.
7. Congratulations, your place is now certified!

Or, you can come to the Nibley City Office to pick up an application. Once your home is certified by the National Wildlife Federation it is good for as long as you own your home. Nobody will come to your place to inspect it. By certifying your property as a wildlife habitat you will help Nibley be Utah’s first certified community, help native birds and pollinators, receive the National Wildlife magazine, receive a personalized certificate, and receive 10% off all NWF catalog merchandise.

Join the BFWA at their open meetings the first Tuesday each month at 7:00 p.m. If you have questions call Ron Hellstern at 245-9186.
